

An occasional series. CDS solves real challenges in today's real business world.

PSCU Credits CDS as Invaluable Resource During Design, Construction, and Move of Corporate Offices.

- **Client:** PSCU (Payment Services for Credit Unions) • **Location:** St. Petersburg, FL
- **Business:** PSCU Member owned processor of credit cards for Credit Unions
- **Number of employees:** 700+

Project: Corporate Headquarters: 100,000 sq. ft. including a full-scale Contact Center

CDS Goes Beyond Office Furniture

PSCU has grown from a start-up firm of 12 to a respected industry giant of over 700 employees. From their ambitious beginnings and through all their growth, CDS has been there with them every step of the way.

For this project, PSCU designated CDS as the "go-to" team member between architect HOK and contractor The Beck Group, and served as the primary liaison.

- Oversaw architectural planning, construction of 60,000 sq. ft. facility, renovation of existing 40,000 sq ft facility
- Planned and supervised relocating entire staff, utilizing existing furniture, no downtime
- Focused on being adaptable for future growth
- Considered and achieved lower employee turnover

"I think I was most impressed with CDS' ability to project manage the whole process. They took a lot of pressure off. They did things that "furniture dealers" just don't do, and that, to me, solidified them as an invaluable asset to our team." Rod Rector, Director of Facilities and Corporate Security
